

Date: February 10 2014

Group Number and Name	DEC14-05 / TV Remote Programming Device for the Elderly and Others that are Mental or Physical Impaired
Client/Advisor	Professor Randall Geiger
Attendees/Role	Brianna Tegeler / Leader, Cimone Wright / Key-Idea, Dallas Thola / Communicator, Josh Carritt / Webmaster

Past week accomplishments

What was done, who did it, and when it was done

- ❖ Met with Advisor- All members participated – Thursday Feb 6, 2014
- ❖ Met as a team- All members participated – Wednesday Feb 5, 2014
- ❖ As a team, decided to take the project in the direction of android application that uses Bluetooth to communicate with a IR Blaster that would be placed in front of the T.V.

Plan for coming week

What to do, who, and when should it be done

- ❖ Josh – Designed and built the project website on the Iowa State web server
- ❖ Brianna – Talk with Mani to get purchase order form filled out correctly
- ❖ Dallas – Download and install Android SDK, complete one android tutorial to familiarize with Android development..
- ❖ Cimone – Order a Nexus 7 tablet from the university, start work on the first draft of the project plan

Pending Issues

- ❖ Getting the order form filled out correctly and approved by Dr. Geiger and Mina

Individual Contributions

- ❖ Josh-Researched into using an Android device for the project, found Bluetooth IR blaster that was open source.
- ❖ Brianna- Rented a tablet from ISU
- ❖ Dallas- Wrote this report, researched into using an Arduino for project.
- ❖ Cimone- Researched other previous groups project plans to develop ideas for how our project plan should look

All- decided on basic plan of what we want/how we want to do project

Individual hourly Contributions

<u>NAME</u>	<u>Hours this week</u>	<u>HOURS Cumulative</u>
Brianna	3	7
Cimone	3	7
Dallas	3	7
Josh	4	8
