

Date: February 3, 2014

Group Number and Name	DEC14-05 / TV Remote Programming Device for the Elderly and Others that are Mental or Physical Impaired
Client/Advisor	Professor Randall Geiger
Attendees/Role	Brianna Tegeler / Leader, Cimone Wright / Key-Idea, Dallas Thole / Communicator, Josh Carritt / Webmaster

Past week accomplishments

What was done, who did it, and when it was done

- ❖ Met with advisor (Prof. Geiger) to get a better understanding of what he wants done for the project - All members - Thursday January 30, 2014
- ❖ Generated ideas for project after meeting with advisor - All members

Plan for coming week

What to do, who, and when should it be done

- ❖ Dallas- Research the Arduino for possible project platform.
 - ❖ Josh- Research the Android for possible project platform.
 - ❖ Bre- Research the Raspberry Pi for possible project platform.
 - ❖ Cimone – Research previous groups Project Plans for ideas for our groups' project plan.
- All- Decide whose project platform to continue on with.

Pending Issues

- ❖ No issues pending

Individual Contributions

- ❖ Each member did the exact same amount of work together in our meeting and contributed to our intense discussions.

Individual hourly Contributions

<u>NAME</u>	<u>Hours this week</u>	<u>HOURS Cumulative</u>
Brianna	2	4
Cimone	2	4
Dallas	2	4
Josh	2	4

Comments and extended discussions:

All decisions this upcoming week will be done as a team.

-This week we will choose a design, decided on what hardware to use, how much it will cost.

-We will also discuss how to accommodate everyone on the team as far as hardware goes.
