## Pending Issues

❖

## Individual Contributions

- ❖ Josh- Server has run into issues and will now store cached copies of all of the TV guide info for each user. Programming continues
- ❖ Brianna- Worked with Cimone to continue getting the app complete; Worked with the "alpha" tester to test out the app to see how well it works so far; Worked with Cimone on cleaning up and commenting the already complete code to make it more organized
- ❖ Cimone- Worked on correcting parsing errors; Updated JSON file to fix issues; Reached out to Rehman to see if there were website issues; Worked with Brianna to clean up and comment already complete code; Started creating a new and cleaner repo
- ❖ Rehman- Received new JSON formatted file from Cimone and tried to fix the issue with file information not being displayed on website; Still having issues; Has been debugging the problem by trying to display information in different formats
- ❖ Dallas- Drafted this report, took meeting notes, researched possible problems with displaying json object, and started assembling slides for final project.
