Past week accomplishments

What was done, who did it, and when it was done

> ❖ Met as a group October 14th as a group to discuss our individual progress on our project
> ❖ Met as a group with our advisor/client on October 16th as a group to discuss our progress on our project
> ❖ Basic project website built using html
> ❖ Webserver is now hosted on our own requested server space
> ❖ Application making good progress on completion

Plan for coming week

What to do, who, and when should it be done

> ❖ Dallas-Continue to build/ fix our own database of ir remote codes
> ❖ Josh- finish setup on server, begin website-parser interface
> ❖ Bri – Continue helping Cimone with other issues on application side of project; Work on certain activities in the app
> ❖ Cimone- fix channel changing issues
> ❖ Rehman- work on parsing in json objects into the tv guide table

Pending Issues

> ❖ Still having trouble with changing channel/ the app crashing when communicating with the IR-blaster

Individual Contributions

- ❖ Josh- installed Apache, mysql, mySqlAdmin, and PHP on the server, began testing and server bugged out. I put in a ticket with CSG hopefully the issue will be resolved quickly.
- ❖ Bri- Worked to combine all working code into workspace; Continued working on getting more layouts of the application complete for all devices
- ❖ Cimone-implemented duplicate program detection, and scheduling conflict detection.
- ❖ Rehman- planned tv guide layout for the website, and began loading data into the table.
- ❖ Dallas- Drafted this report, took meeting notes, started ir remote code database, and refreshed java programming knowledge
