Attendees/Role	Brianna Tegeler / Leader, Cimone Wright / Key-Idea, Dallas Thole / Communicator, Josh Carritt / Webmaster, Rehman Shahzad / Android Architect

## Past week accomplishments

What was done, who did it, and when it was done

- ❖ Meet with EE 492 instructor on September 16<sup>th</sup> as a group to discuss our project
- ❖ Set a date for September 25<sup>th</sup> 8:00 AM to meet with client/ advisor
- ❖ Created folder for website inside of the repo
- ❖ Website login was created in PHP
- ❖ Meet as a group on September 16<sup>th</sup> to discuss projects needs

## Plan for coming week

What to do, who, and when should it be done

- ❖ Dallas-Figure out software for IR layout and begin implementation
- ❖ Josh- Convert Parser to JSON object
- ❖ Bri-Develop a server side tv guide mock up, help figure out the time to meet with Dr. Geiger
- ❖ Cimone- Get in contact with Dr. Geiger, help Rehman and Bri
- ❖ Rehman- Start code for listener code for the scheduler

## Pending Issues

- ❖ Rehman was having troubles downloading and running the repo on his workstation, will work with josh to find a solution

## Individual Contributions

- ❖ Josh- Worked on converting parser to JSON object, got Rehman's workspace setup.
- ❖ Bri- Worked with Cimone in figuring out exactly how to create a TV guide "table" layout in the website creation, determined there were widgets but are no longer available; Will use the information from the parser and create a table in our own HTML format
- ❖ Cimone- worked with bri
- ❖ Rehman- Worked with Josh and got the repo running on my workstation
- ❖ Dallas- Drafted this report, Decided to use national instruments software for PCB design and other research for PCB
