

Date: September 28, 2014

Group Number and Name	DEC14-05 / TV Remote Programming Device for the Elderly and Others that are Mental or Physical Impaired
Client/Advisor	Professor Randall Geiger
Attendees/Role	Brianna Tegeler / Leader, Cimone Wright / Key-Idea, Dallas Thole / Communicator, Josh Carritt / Webmaster, Rehman Shazad / Android Architect

Past week accomplishments

What was done, who did it, and when it was done

- ❖ Meet as a group on September 23th as a group to discuss our individual progress on our project
- ❖ Meet as a group with our advisor/client on September 25th as a group to discuss our individual progress on our project since last semester
- ❖ Common parts ordered for IR droid
- ❖ After meeting with advisor, building ir droid on bread board to test circuit
- ❖ Updated project timeline
- ❖ Basic website design is built and ready for tv guide implantation

Plan for coming week

What to do, who, and when should it be done

- ❖ Dallas-Update project timeline to include hardware section of project, move forward building ir droid on bread board
- ❖ Josh- Begin setup on web server, put finishing touches on parser
- ❖ Bri – work on the website, continue to learn html/php
- ❖ Cimone- Working on Scheduler Part of android code
- ❖ Rehman- Help Cimone on android and assist Dallas with hardware

Pending Issues

- ❖ Cimone is having troubles with repo and has limited internet connection when working on project over seas

Individual Contributions

- ❖ Josh- nearly finished converting parser to JSON object
- ❖ Bri- continued work on website design, began learning html coding
- ❖ Cimone- worked on the scheduler, helped with php sections of website.
- ❖ Rehman- become familiar with the code
- ❖ Dallas- Drafted this report, took meeting notes, ordered common parts for IR droid
